

Import / Export Customs Management Services We keep your cargo moving!

ISF Filing | Customs Management

As your Import/Export Customs Management Agent, we provide optimal solutions for your international shipping needs. We ensure the smooth operation of your business by efficiently processing the Customs and Border Protection requirements for your cargo. As your agent we will:

- 1. Process and Complete ISF Filing:** The Importer Security Filing (ISF) is a mandatory additional layer of security for ocean freight imports. It informs U.S. Customs about details concerning the importer, cargo goods, and shipper information before the shipment enters the United States (ACI for Canada; ENS for Europe). Customs Bond: Single or Continuous Entry.
- 2. Collect & Review Documentation:** To prevent delays and potential complications during the cargo shipment process and its arrival at U.S. customs, it is essential to have the necessary documents with accurate information. These documents typically include the Bill of Lading (B/L), Commercial Invoice (CI), Packing List (PL), Certificate of Origin (COO), etc. and the appropriate Harmonized Tariff Schedule (HTS) designation.
- 3. Assist with Customs Clearance:** Processing your shipment, Customs will inspect the submitted paperwork, determine applicable duties, request and confirm payment, and release the imported goods.

Logistics Networking

We can fulfill all of your logistics needs and freight requirements, from loading your shipment at the point of origin to transporting cargo to its final destination. Our services include Ex Works (ExW), Free on Board (FOB), Cost and Freight (CFR), Cost, Insurance, and Freight (CIF), and Delivered Duty Paid (DDP).

At **ENZO'S International**, we handle it all! Enjoy peace of mind as we coordinate every aspect of your import and export processes, ensuring that your shipments move smoothly while providing you with the most competitive rates available.

***Important:** ETDs, ETTs, and ETAs are never guaranteed by the sea carrier and are subject to change at any time. Please keep in mind that it can take up to seven days for the cargo to be loaded at the port of origin. Ocean freight is typically cleared by us several days before the cargo arrives at the port of destination; otherwise, it will be cleared within one to two days of arrival at the first port of entry.

***Insurance is recommended:** Insurance rates are based on the commercial invoice (CFR value) and are very affordable. For your peace of mind and convenience, we always recommend insuring your cargo to cover any potential transportation damage.
